ideas make the change

TiS

Fashioned to suit your design

TIS smart home company presents; Terre: Latin word meaning Earth, a series of fully functional panels to bring comfort right next to you. Inspired by its name and meaning, this series is available in glass, plastic, wood, leather, stone and metal finishes and attracts attention with its perfect curves and edges.

This stylish series includes 4 products;

Terre 4 Gang Touch Panel : a simple 4 touch button interface to control light, curtain and moods.

Terre AC Control Panel : a simple 4 touch button interface to control temperature, fan speed, floor heating or any heating and cooling devices. It has a high resolution OLED 1" through which reminders and alerts are displayed.

Terre Music Control Panel : it has music player touch buttons and supports TIS audio player. Also, music track, reminders, and alerts are shown in its OLED 1".

Terre Hotel Panel : an ideal, simple but trendy interface compatible with all Terre sockets and switches. This panel can be combined with any of the four gangs to better suit your hotel room design. Also your guest can request different services such as laundry, mini bar, etc. only by touching the related icon.

These wall panels fit in Europe / UK standard box sizes and are also combinable with each other, for example the 4Gang Touch Panel can be combined with the AC Control Panel, or Music Panel be joined up with USB socket. But the important fact is even when you install them as one single panel, the series is quite user friendly and easy to work with, since each section has its own specific function.

Just choose one of these panels according to your likes and needs.

Time to experience trendy technology with **Terre series.**
